PLATFORMS: Windows, Linux, MacOS, Microsoft 365

EDUCATION

Florida State University, Tallahassee, FL — Expected May 2027
Bachelor of Arts in Information Technology
3.5 GPA

Tallahassee State College, Tallahassee, FL — May 2025
Associates of Arts in Information Technology
3.5 GPA

PROJECTS

Senior Networking Project — December 2025
Course: Introduction to Networks and Telecommunications

- Designed a segmented network infrastructure using VLANs, private IP addressing, and standardized naming conventions to support a 45-person nonprofit staff
- Developed security and disaster recovery policies, including role-based access control, MFA, encrypted backups, and a cloud-based warm site for business continuity
- Collaborated with teammates to build logical and physical network diagrams, a mockup database, and a full budget and bill of materials for the project

Blockugan Mod Project — September 2026 - Present
Minecraft Java Edition

- Leading all technical development as the sole programmer on the project
- Designing 3D models in Blockbench, then animating them using the GeckoLib framework
- Coding and developing custom Java-based items and game mechanics
- Building the project website using Astro to gather community input through a player survey

EXPERIENCE

Shift Supervisor (Keyholder) — July 2025 - Present
Starbucks Coffee Company

- Led day-to-day operations in a high-volume, fast-paced environment.
- Set expectations for daily goals and encouraged the team to execute said goals.

Team Lead (Keyholder) — August 2023 – July 2025
Chick-Fil-A Restaurants

- Led day-to-day operations in a high-volume, fast-paced restaurant environment.
- Displayed excellent communication skills while coordinating collaboration between the front and back-of-house.

Awards

Awarded, President's List — May 2026
